Raina J. Shah, M.S.E., CPE, C.P.S.M.

Senior Consultant

Ms. Shah is a Senior Consultant and directs chemical risk communication activities. She has extensive experience in litigation matters related to chemical hazard communication, automotive human factors, and consumer product safety and warnings. Her recent professional activities include the development and evaluation of warnings and instructions and the analysis of human factors associated with chemical and environmental risk communication. Ms. Shah has directed research related to accident databases as well as global approaches to assessing and communicating risks, and has regularly lectured at the University of Michigan on the topics of hazard communication and uncertain

health and safety risks. As a member of the American National Standards Institute (ANSI) Z535.4 Subcommittee on Product Safety Signs and Labels, she has also played an active role in national standards for product warnings as well as instructions (ANSI Z535), and chemical labeling (ANSI Z129.1).
